

## Trustees Establish New Law Center

### PhiSig Picks Model Pledge

MISS LOUISE HARDY of Pi Beta Phi Sorority was selected Miss Model Pledge at the fourth annual Phi Sigma Kappa Model Pledge contest.

Second place winner was Virginia Sangster, Chi Omega, and third place winner was Sharon Mobley, also of Chi Omega.

Each sorority was represented by its three most outstanding pledges. The girls were judged on personality, poise, intelligence and appearance. The judges were Mrs. John Edey, III, Fashion Coordinator of the Hecht Company; Miss Marge Villano, Assistant Director of Powers Modeling School and Mr. Paul Crabtree, Administrative Assistant to Congressman Hecker of West Virginia.

Other girls reaching the finals were Susanne Ritter, Pi Beta Phi; an Larkins, Kappa Kappa Gamma; Nancy Kinsman, Chi Omega; Stephanie Katims, Phi Sigma Sigma; Jane Bayol, Delta Gamma; Arlene Glugatch, Phi Sigma Sigma and Anne Garfield, Kappa Delta.

Miss Hardy was crowned by Tom Edmonston, Phi Sigma Kappa pledge president.

Photo by Mike Levy

SHARON MOBLEY, Virginia Sangster and Louise Ann Hardy (left to right) pose prettily as the three top winners of the Phi Sigma Kappa annual Miss Model Pledge contest. Miss Hardy was selected Queen.

## Messiah Chorus, Toy Drive Climax '59 Holiday Festivities

THE 1959 HOLIDAY Season will be climaxed by the annual Orphans' Party, Thursday, Dec. 17.

The Orphans' Party will be aged for children from three different orphanages in the vicinity: Vincent's Home, Central Union Mission and the Masonic Home for Orphans. "Santa Claus," Pete Wasilewski and the 59 Snow Queen will visit the children. The party, under the airmanship of Harvey Wertheim, will be held on the second floor of the Student Union. The children will be entertained by a magician and with ice cream, Christmas carols and toys.

On Wednesday, Dec. 16, a special chapel service will be held at 10:10 pm. Dr. Joseph R. Sizoo, Director of University Chapel will be the speaker.

Last night, the annual presentation of Handel's choral work, "The Messiah," was given. The soloists for the evening were Betty King Waller, soprano; Patricia Randall Byrd, contralto; William Dupre, tenor and Roger Erdy, bass. The latter two are members of the Singing Sergeants. Participating choral groups were the University's combined glee clubs, the University's

Traveling Troubadours, the Eldebrook Methodist Church Choir and the Singing Sergeants of the United States Air Force. Accompaniment was provided for by the United States Air Force Band. The entire production was under the direction of Captain Robert L. Landers.

### Snow Queen

Also, on yesterday's program was the crowning of the 1959 Snow Queen. Each organization which contributed toys for the Orphans' Party nominated a candidate for the title. The candidate whose organization collected the most toys for the drive was

crowned Snow Queen. This part of the holiday program was under the supervision of Tom Wagner.

Following the crowning of the Snow Queen, the traditional Christmas tree was presented to the University by the School of Engineering.

Lisner lounge was the scene of the third annual Holiday party for all University students. The Faculty Women's Club of the University and Professor Alan T. Delbert, adviser to foreign students, were the hosts. Mrs. John Einbinder, wife of the University business manager, was chairman of the afternoon party.

## University's Patent Foundation Receives Federal Study Grant

by Roger Stuart II

THE UNIVERSITY'S Patent, Trademark and Copyright Foundation announced Sunday that it has received a \$28,000 research grant to study the Federal Government's patent right policy concerning inventions developed under Government financed research and development contracts.

The grant was supplied by the General Services Administration. Dr. Donald S. Watson, University professor of economics and Dr. Harold F. Bright, professor of statistics, will be the principal and associate investigators, respectively.

The object of the study is to examine and evaluate the effects of the Government's policy respecting contractors, Government agencies and the public interest.

Some of the factors involved in the public interest, the Foundation announcement said are: the progress of science under the present system, the strengthening of national security, the stimulation of

economic growth through gains in productivity and the preservation of a free and healthy economic structure.

The Foundation took into account the variance of Government agency patent policies. Some agencies, it said, require Government ownership or control of patent rights. Others permit the contractor to retain the rights subject to a non-exclusive royalty-free license in the Government. While still other agencies follow variations of these practices without adhering to a consistent policy.

Announcement of the University grant last week came only a few days after Democratic Senator Russell Long of Louisiana issued a statement challenging the Defense Department's practices of giving industry exclusive patent rights to inventions developed under Government contract.

Long, chairman of the Senate Anti-Trust and Monopoly Subcommittee, is now holding hearings

## Dr. Nutting To Assume The Position As Dean

THE UNIVERSITY BOARD of Trustees announced last Thursday the establishment of the University's National Law Center and the appointment of Dr. Charles B. Nutting as its Dean.

Dr. Nutting is currently director of the Buhl Foundation and is a prominent educator. He has served as acting chancellor and vice chancellor of the University of Pittsburgh, dean of Pittsburgh's Law School and past president of the Association of American Law Schools.

Dr. Nutting, as dean of the Law Center will, for the time being, assume the additional duties of the dean of the Law School. He will assume his new duties by the beginning of the Spring semester.

The Trustees, in establishing the Law Center, said that the University's 94-year-old Law School "is traditionally national in its student body and in its devotion to the American system of law as a whole," and termed it "ideally suited for development of a law center which is national in scope."

The establishment of the Law Center will also make possible the expansion of the traditional leadership of the Law School and will bring into being the Graduate School of Public Law.

The Law Center will provide opportunity for the vital related research and publications in public law, will dramatically increase the continuing legal education program for the practicing bar, and will extend the use of an interdisciplinary faculty selected from various related fields.

The Law Center will eventually occupy new quarters on land bounded by 19, 20 H st. and Pennsylvania ave. Establishment of the Law Center follows approval by the National Capitol Planning Commission and the District Board of Commissioners of the University's expansion plan.

The Graduate School of Public Law will be primarily concerned with three basic and inter-related objectives. First, it will provide advanced substantive and pro-

## SC Advocate's Reorganization Plan Readied

by Bob Nichols

THE HATCHET LEARNED late last week that Advocate Dave Aaronson's Council Reorganization Committee had completed a rough draft of its second suggested reorganization measure for the Student Council.

The plan would call for a change in the organization of the Student Council, as presently outlined in The Articles of Student Government and would thus necessitate an amendment to the Articles in order to accomplish its purpose.

The first plan presented by the committee was defeated by the Council earlier in the year on the grounds that the committee had not considered enough alternative

### Pi Delta Epsilon

CHERRY TREE Pictures for Pi Delta Epsilon will be taken Thursday, Dec. 17 at 2 pm in the HATCHET office. All members are requested to be present.

plans in its drafting of the measure and thus may have overlooked some significant suggestions.

Mr. Aaronson feels strongly that this second plan effectively accomplishes its purpose, is well thought out and has been thoroughly discussed. "The purpose of the plan," he said, "is to facilitate coordination of student activities and to improve the publicizing of them. Also, the plan is intended to increase student interest in Student Council co-chairmanships, and to bring about more direct contact and communication between interest groups on campus and the Student Council."

### 30-Man Committee

Under the plan, an activities committee of some thirty members would be set up. This committee will have the power to appoint committee chairman for various special activities, presently appointed by the Student Council. It will also hear petitioners for co-chairmanships, submit nominations for the offices to the Student Council and then include those co-chairmen, chosen by the Council, on the activities committee until their jobs are completed.

The executive board of the activities committee would be composed of four members presently part of the Student Council; the program director, the activities director, the freshman director and the publicity director.

Removed from the Student Council would be the member-at-large and the Student Union director, which will be made a committee chairmanship. Two possible additions to the Council could take place; a "night school" representative and a dormitory representative, although the com-

(Continued on Page 8)

### Hi-Ball

FRED PERRY'S BAND will play at the Hi-Ball Dance on February 6. The dance, an all-University, semi-formal affair, will be held at the Arlington Towers.

Working with Co-Chairmen T. C. Aronoff and Joe Iseman are the following sub-chairmen: Tickets, Bill Talentino and Sue Kinneman; Publicity, Lynda D'Andrea and Eltheer Wardfield; Comptroller, Hal Tomlin; Secretary, Carolyn Tucker; Decorations, Sandra Jacobson.

# CCP Tries To Spur Activity Petitioning

• THE COLONIAL Campus party last Friday designated Student Council President Tim Mead and party Chairman Roger Stuart to appoint a chairman of its committee on Better Student Government.

The newly formed committee will advise the Student Council of competent people who are willing to petition for committee positions under the council's jurisdiction. It will also help to seek out people from the party's membership as well as from outside the party to fill these jobs.

In this way, Mr. Stuart said, "The student body will be given the advantage of better planned activities. Interest will be created in some of the most outstanding, but little recognized administrative posts available in student activities."

**Party to Profit**  
The party will profit because

the committee will help to fulfill one of its major aims and that is to get a broad base of student leadership on campus, he said.

President Mead, a Colonial campus member himself, emphasized that the person selected will be instructed to work across party lines in order to select the most competent people.

He further mentioned that these posts, which are handed out to the Council, will have to be passed by majority vote, and that the party members on Council will not be pledged to vote the party line on these positions.

Mr. Stuart said that even though these are appointed positions and are not elected by the student body, he still felt that this action with the restrictions prescribed by Mr. Mead, were essential. The Council, he said, is not in a position with its limited membership to create an interest in petitioning for these posts.

"We have the numbers, so we should use a little initiative. We owe it to the University and to

## Defense Projects Aided By Grants

• DEFENSE RESEARCH AND development projects underway at the University received a new shot in the arm from the Department of Defense last week.

The Department of the Army granted the University an additional \$1,450,000 to continue the work started under President Cloyd H. Marvin. Award of the contract was made by the Quartermaster of Cameron Village, Alexandria, Virginia.

The grants were made as a part of the nationwide program conducted by the Defense Department in utilization of research and development facilities of American colleges and universities.

### Get In Touch

• THE HATCHET has a new telephone number. It is RE-7-7651. Students or faculty may get in touch with the HATCHET by calling this number.

the students. They gave the party a majority on the Council because they thought we could do the job. It's up to us to prove that we can. "In this way we can prove it," he said.

## Patent Foundation

(Continued From Page 1)  
that the inability of private industry to get exclusive rights was inhibiting the development of the atomic reactors, and was thus permitting the Russians to catch up to the United States.

Long's statement last week said that he was also opposed even to the provision of the Space Act which automatically puts all inventions developed with Federal funds in the public domain but gives the agency the right to waive Federal rights.

### NASA Changes Seen

But even this provision for the National Aeronautics and Space Administration may be changed. While Long was giving his statement at a press conference, John A. Johnson, chief counsel of NASA, was telling industry representatives that NASA is trying to do away with the Space Act article which Long referred to.

NASA is trying to get the Space Act changed, Johnson said, so that the industry will automatically be given the exclusive patent rights to inventions developed with the Federal funds at its disposal.

Long said, however, that he was personally convinced the effect of these exclusive rights is to erect walls between teams of American scientists and that it prevents free exchange of industrial know-how.

In another development last week, Democratic Senator O'Mahoney of Wyoming, chairman of the Judiciary Subcommittee on Patents, issued a report in which he declared an urgent need to resolve similar differences in policy among Government agencies in

handling patents on Government employee inventions.

Many of these areas touched on by key public officials last week will be examined by the University's Patent, Copyright and Trademark Foundation under its new grant. The Foundation report indicated that its research should make an attempt to cast light on many factors connected with the problem.

Some of the areas the Foundation may investigate are: the influence of the contractor patent-ownership policy in contributing to the concentration of economic power to the detriment of a freely competitive industrial economy; the motivating effect on scientists and other technical people, actually engaged in the work, of knowing that an invention would become Government property rather than the property of their employing concern; and the problems of utilization or administration of patent rights when acquired by the Government.

The effect upon the Government's research and development costs of diminishing the patent rights which now are given contractors under present patent-ownership policies may also be looked into, the Foundation said.

### Areas of Investigation

Consideration may also be given policies which are "in between" the contractor-ownership and Government-ownership policies, such as giving the contractor: (1) a non-exclusive license only, (2) title, but a requirement to license promptly to any concern, (3) title, but a requirement to license to small business concerns, (4) an exclusive license to a contractor for a fixed period of years, (or contractor-ownership of the title to patents for a limited period of years) with the title thereafter, going back to the Government or becoming public property.

Other areas which may be considered by the Foundation are the possibility of reduced availability of research facilities of industry if there is a departure from the present patent-ownership policies; the extent to which concerns of the contractor patent-ownership policy as an invention incentive to concerns, plus the effect, of any, on the invention incentive of a policy which limits the contractor's patent rights.

Finally, the Foundation may seek light on the possible effects of discouraging commercial production of inventions by departing from the patent-ownership policies now in use.

# Enthusiastic Audience Enjoys First Session Of Mock Trial

by Irene Cunin

• BAXTER GRIFFIN, A University student, went on trial Wednesday evening on a charge of first degree murder. He was accused last September of first degree murder of another University student.

The Mock Trial was jointly sponsored by the Student Council and the Student Bar Association. A capacity crowd filled the classroom, indicating the function to be a success.

Judge Edward A. Beard of the D. C. Municipal Court presided. Regular courtroom procedure was followed in order to present the audience with an accurate reproduction of a trial and to provide the attorneys with an opportunity, as Mr. Lewis Overhouser stated, "to stand on their own feet and make like lawyers."

Before the trial actually began, Judge Beard commented on the headline of the HATCHET article of last week. He said it implied that Griffin had already been tried and convicted and that "the editors or whoever was responsible for this" should be cited for criminal contempt.

However, he stated, we will overlook the offense this time.

Stan Lipnick, co-counsel for the prosecution, opened the challenge of the jury by asking if any candidate knew any of the counsels. Paul Rudman was senior counsel for the prosecution and Al Hutchison and Victor Agmata were senior and co-counsels for the defense.

Mr. Lipnick then asked if anyone was acquainted with the witnesses, Lola Stewart (Susan Braun), Gertrude Miller (Cookie Fischgrund), George Kennedy (Ray Link) and Private Friday (Ben Finkle) or with the defendant (Bill Belford). Questioning was continued by Mr. Hutchison and Mr. Agmata until the four counsels were satisfied with the qualifications of the jury.

The first problem which arose

during the trial was the necessity of asking the witnesses to leave the room. The problem: Where should they go? This decision was left up to the marshal, Steve Smethurst and he ushered them out promptly. Due to the length of the first testimony, three out of four of the witnesses never returned to the courtroom.

Mr. Rudman presented his opening statement to the jury. Mr. Hutchison objected, insisting revision was necessary if the trial were to continue. Mr. Rudman's statement offered no indication that trial for first degree murder was in order. It was revised.

Victor Agmata declared in the opening statement of the defense that evidence showed that the

defendant had acted in self-defense.

The arresting officer, Private Friday, was called to testify. Deprived of the notes he had made on the day of the murder, he was unable to recall what time he made the arrest, the address of the apartment and many other points. Both the efforts of the prosecuting attorney to draw out these details from the forgetful Friday, and the judge's comments on the proceedings were enjoyed to the fullest extent by the enthusiastic audience.

At the end of the two hour period, Judge Beard brought the trial session to a close by extending an invitation to the audience to attend the next session on January 6 at 5:50 pm in room B-4 of the Law School.

## Indonesian Reception Honors Prof. Deibert

• PROFESSOR ALAN T. DEIBERT was the honored guest at a reception given by the Ambassador of Indonesia, His Excellency Moekarto Notowidigdo and Mrs. Notowidigdo.

Professor Deibert is the University adviser to foreign students and is also professor emeritus of romance languages in residence.

The reception was held at the Indonesian Embassy on Saturday, Dec. 5 from 5 to 7 pm.

Also attending the party were Acting President and Mrs. O. S. Colclough, The Dean of the Junior College and Mrs. George M. Koehl, The Dean of Columbian College and Mrs. Calvin D. Linton, the University Librarian and Curator of Art, Mr. John Russell Mason and other University officials.

Members of the University's International Students' society, of which the Ambassador's son, Harry Notowidigdo, is a member were guests at the party, as well as members of the Embassy staff.

Three Indonesian dances were

presented for the entertainment of the guests; the first depicting an Indonesian prince making preparations to appear at the Royal Court; the second, the dramatic Candle Dance; and the third, a spirited dance from the Island of Java.

Mr. Deibert, who is retiring in August, has served the University for 28 years. He holds the Eloy Alfaro International Medal, given him in recognition of his service to foreign students.

Joyce Ormsby

## Joyce Ormsby Wins Ideal Big Sis Honor

• MISS JOYCE ORMSBY has been chosen as the Ideal Big Sis for 1959.

Joyce was chosen for her work on Big Sis committees and for her outstanding work as a Big Sis, as shown by a letter written by her Little Sis, Anne Ware.

"I think Joyce Ormsby is the Ideal Big Sis because of the sincere assistance she has given to me, as well as to other entering women students at G.W. Her guidance has made orientation pleasant and effortless for me; she has encouraged my interest in campus activities and she has introduced me to many people here at G.W. Now, even though the first most difficult weeks of orientation are over, Joyce still finds time

to inquire about my studies and my campus life, offering to help in any way she can. Joyce has been both a friend and an advisor to me, which is the way the Ideal Big Sis should be."

### Editorial:

## National Law Center

• THE BOARD OF Trustees' approval last week of the National Law Center of The George Washington University and the appointment of Dr. Charles B. Nutting as its Dean may mark the turning point which will make the University the center of legal education in the United States.

The approval is significant in that the resolution drafted by the Board in 1951 which inaugurated the idea of the Law Center has, at last, come into being. It also means that the first step in the University's long range redevelopment plan has been taken toward fulfillment.

But more than just the actual physical improvement of the University must be taken note of. Here is an idea, which when it becomes mature, will have more than just a prestige value for the University. It will have perhaps the most far reaching significance of any single development in the University's history.

In forming their latest resolution, the Board set up a Graduate School of Public Law as a part of the Law Center. Herein lies the opportunity which the University will have in fashioning law in this country.

This opportunity, as pointed out by the late Supreme Court Justice Robert H. Jackson, places a "particular emphasis on the new and complex problems developing in the public law area because it is here that the balance between individual rights and governmental power is to be resolved."

The Graduate School in Public Law will make provision for seminars, institutes and conferences where the law and current social, economic and political problems can be brought into focus. The interdisciplinary faculty allowed for will be the tool from which the Law Center can branch out and investigate these ramifications in all of today's law making.

With the stepped-up rate of published material envisioned by the Board, the University will be able to spread its findings to law makers and lawyers throughout the country.

Particularly significant in this study of public law is something which Justice Jackson also pointed out. "There is a decided shift of emphasis in the work of the legal profession from private to public law."

Today, administrative law, regulation of communication media, government contracts, world law, legal problems and modern methods of warfare, comparative law and labor law are areas which four decades ago did not present themselves on a national level and did not deserve consideration because they did not exist. Then the state legislatures wielded a greater influence than they do today. But all these subjects are now national in scope and deserve Federal legislation by Congress.

Legislators today must be expert in these fields of law making which the plans for the Graduate School of Public Law envision. All of these areas demand technical knowledge in order that legislators may fashion laws which meet the needs imposed by our complex society.

Washington is at the heart of America's legislation. Thus The George Washington University should take advantage of its location to direct the evolution of public law.

The University may be on the threshold of its greatest era. To Dr. Nutting, we extend our welcome and wish him success. For he will be the man who will administer and bring into existence this worthy objective. With his background, he is undoubtedly suited for the position.

America was founded by bold men who acted for the good of mankind. The Board of Trustees has, in our estimation, launched us on another bold adventure.

### Criminal Contempt

• THE EDITORS OF THE HATCHET note with approval and satisfaction the enthusiastic response to the Mock Trial. We are also happy that Judge Beard decided not to cite us for criminal contempt for the headline of last week's story.

The editors wish to point out that the headline and story were slanted to create interest in the trial. We did not realize

just how real the trial might get, but from now on we will get the opinion of our legal staff before we burst into print.

We hope the spectators and the good judge will forgive our value judgment in this week's headline, but this display of enthusiasm for such a worthwhile project is so refreshing that we "just let ourselves go" and made note of it.

## Letters To The Editors

• I AM WRITING in regard to the recent selection of members to Who's Who. In my opinion many of those chosen were totally unworthy of this "honor" and were indeed chosen for other reasons.

This year's method of having candidates nominated by the Student Life Committee has in part led to this fault. Many of those chosen were nominated only because their friends, sorority sisters, or fraternity brothers sit on the nominating committee. In addition, certain candidates were selected as the result of concessions and alliances among members of the Committee. Some of these people might never have petitioned or been chosen on their own.

Further, the standards to which GW sees to adhere are not very demanding. An office in a fraternity or sorority may be sufficient for election to Gate and Key or Delphi, but certainly not for Who's Who. Members should be selected for outstanding contributions to all phases of student life and not for excellence in one kind of activity.

It has been said that the administration feels it necessary to fill the quota allotted to GW; this will add prestige to the school and give students an incentive to participate and become leaders in student activity. As a result, this year's selection has produced quantity, but at the expense of quality. To be an honor, the group must be limited, and students should not be elected merely to fill a number.

After looking over this year's selection, I can hardly say that any improvement has been made over last year. In fact, we are regressing toward more unjust and selfish methods than before. The University is succeeding in defeating its own purpose and Who's Who on this campus is rapidly losing the honor and significance for which it stands.

/s/ Cookie Fischgrund

### USIA Jobs

• LEWIS BAKER of the United States Information Agency will give an informative lecture tomorrow at 3:30 pm in Monroe 204 on the U.S.I.A.

The USIA will be interviewing all day Wednesday. The agency wants people with Masters degrees in languages, journalism, international relations, political science and history of American civilization.

Bachelor's degree holders will also be interviewed if they have two year's experience in one of the above fields.

### Point Of View:

## Christmas

By The Editors

• TWENTY CENTURIES AGO a child was born. He was not of a wealthy family. He was the son of a young carpenter and his wife. The man's name was Joseph and the woman's Mary.

From such a humble beginning, being born in a manger, as this baby called Jesus was, it is a great wonderment how in His life of thirty-three years He was able to develop a philosophy which is now adhered to by about a third of the world's population.

We celebrate Christmas in remembrance of Jesus' birth. Many people in the world question the man's divinity, and many do not acknowledge Him as a saviour of His people as Christians do. But everywhere across the width and breadth of our own country and throughout the world, spirits are lifted and the world celebrates the birth of this great man.

Whether or not He was divine is not what concerns many people. The thing they celebrate is what Jesus taught and how He lived. A man of noble character and magnanimous spirit, Christ gave of Himself freely and completely.

## 'Evening Of Dance' Sparked By Talbert

by Ed Orem

• THE PERFORMANCE of the University Dance Groups' production of "The Gift," a product entirely of the University community, featured in their Evening of Dance last Thursday night, was of unusual success.

Although the ideas presented in verse were fairly comprehensible and effective, and the music made a hit, the dancers' interpretations many times did not coordinate with the author's and composer's intent of communication.

Narrator-author Paul H. Stacy chanted out the pathetic, age-old story of Greed and its effects on love. Jane Firey, The One Who Receives, wants a stole for Christmas, but her lover George Mozer, The One Who Gives, indicates that alas! he is not able to get it for her. Receives is disappointed. Her greed is overwhelming and grief carries her to her subconscious, where she imagines herself fighting the Mannequin for the stole. Receives wins out and gets the stole. It is a great victory for her subconscious, but a bigger decline for her real self when her lover gets her the stole after all. She then realizes that her material values precluded all else, even love. This brings her to great repenting emotions, which

put her standards in their proper perspective.

Jane Firey danced through her role as The One Who Receives with great feeling when her crisis was imminent, but otherwise she was merely one of the many dancers on the stage.

George Mozer, her lover, lacked much of Miss Firey's sensitivity and appeared not to be quite as inspired throughout most of his dancing.

Joan Talbert, as the Mannequin, on the other hand, glided through every motion with a meaning and an expectancy which knifed through the audience.

The Woman and Man Shoppers, Barbara Jo Houlihan and Warren Ashby, effectively created a contrast needed between the confusion of greed and the simplicity of love.

The combination of Paul H. Stacy's verse and narration, and the haunting backdrop of Joseph Ott's music to the effective choreography by Jane Firey and Joan Talbert provided an ideal opportunity for the dancers to lift the audience's imagination up and away. But this opportunity was apparently not realized; the dancers, displaying only slight degrees of emotional expression, left the audience's minds sitting quietly.

## Wagner And Wertlieb Plan Holiday Season

by Dave Tuerck

• CHRISTMAS AT THE University means a lot of things: the Messiah Chorus, faculty teas, the orphans' party and Christmas trees around campus.

These marks of the holiday season have become traditional here, but the students could never enjoy them but for the successful work of the

program's two co-chairmen. Directing this year's activities are Tom Wagner and Harvey Wertlieb, who have been often noted for their participation in University life.

Mr. Wagner, a sophomore from Prairie Village, Kansas, has had a big job in co-ordinating the Messiah Chorus program, which was held last night at 8:30. He has been manager of the sailing team and as an alumni scholarship holder belongs to Alpha Theta Nu. Because of his scholastic accomplishments he has become scholarship chairman of his fraternity, SAE, and is a member of Phi-Eta Sigma, freshmen men's honorary. Recently he was tapped for Order of Scarlet, thus receiving recogni-

tion for the sort of leadership he has been exercising throughout these holiday activities.

Mr. Wagner's colleague, Harvey Wertlieb, has been working closely with him on publicity as well as co-ordinating his own facets of the program. Mr. Wertlieb, historian of AEPI Fraternity, has been active on station WRGW, has participated in Old Men and has played intra-mural football for his fraternity. He believes that the orphans' party, which will be held on the second floor of the Student Union from 6:30 to 8:30 Thursday night, must be a success, especially for the children.

### Three Orphanages

They will come from St. Vincent's Home, Central Union Mission and the Masonic Home for Orphans to receive presents donated from University students and presented by "Santa Claus," Pete Wasilewski.

In commenting on the work done by his committee members, Mr. Wertlieb said, "Students working on the party are very enthusiastic about providing a happy Christmas for the children." While the deadline for entering toys for participation in the snow queen contest is 12 noon today, there remains a great need for more if each child is to receive a gift.

### Other Events

Other events which the co-chairmen have planned for this last week before the holidays is a student-faculty tea Monday afternoon at Lisner auditorium, the presentation of a Christmas tree to the school by the Engineering council Monday at 8:15 pm, and a chapel service Wednesday at 12:10.

### ROTC

• THE UNIVERSITY Cadet corps last week received the first place trophy which it won for having the best ROTC marching unit in the Bethesda Junior Chamber of Commerce Christmas parade.

• BUSY, BUSY, BUSY, must, must, must make up for the three entire weekends we will be home. Yes, the entire campus seems to have this in mind. Parties, parties, parties... one group was so "partied" the punch bowl turned their story in.

Being a well supplied "punch-bowl" I saw just about everyone who was at the KD pledge formal last Saturday night. I made a few very good friends. Dale Hamilton from Penn State was one, but Dale seemed to prefer the company of Karen Dreider. Another Penn State graduate student was Charlie Spink, with our favorite pledge trainer, Sue Waskfield. Shining on the dance floor were Bonnie "Bunny" Blair and Sig Ep Larry Doyle, Anne Mason and

Lee Houck and Jitterbugging SPE Hans Zassenhaus and Linda Shoemaker. I listened to a great conversation at the next table between "oo most holy President" Pat Gussin and Joel Ganz, Peggy Culver and Steve Rosen. For a good laugh I listened to pledge President Carolyn Waugaman, SPE Prexy Chet Gray, Nancy Davidson and Henry Harper. Our pinmate couples certainly looked happy, Mary Foster, SAE Jett McNett, Gail Evertsen, Delta Sigma Phi Al Smith and Thelma Libby with Sig Ep Dick Runge. Returning to the punchbowl most frequently were Joan Grubbs and John Patrick, Jane Shouse and Don "Oby" O'Brien, both fellows from Penn State, Charmaine Bish, Leo Chechlin, Anne Ware and Bill

Keys seem to be setting the pace at one pledge-filled table. Laughing with them were Mary Stocker, Jim Runge, Nancy Tucker, Sigma Chi Fred Smith, Jan Meyer, Chuck Putney, Steve Prager, Bill Pritchard, Liz Chase, Larry Denison, Anne Garfield, Phi Sig John Prokop, Margie Gray and SAE Pete Wasilewski. Keeping an eye on this slightly crowded pledge-filled table were Jean Ferrick, Sig Ep Art "At" Howard, Sue Flocken, Sigma Pi John Press, Kaleen Peck and Tom Vaden.

The Teps celebrated their annual Sweetheart Dance on Friday night at the Occidental Restaurant. The highlight of the evening was the crowning of the 1959-60 TEP Sweetheart, AEPH Toby Gutwerk. Enjoying the celebration was the new Sweetheart's date, Joel Ostrow accompanied by Al Capp and new pinmate AEPH pledge Gail Trebow. Also toasting the new Sweetheart were Barry Seboltz and AEPH pledge Sue Scher, Stud Levine and Marcine Singer, Leo Breitman and AEPH Leah Beyda. Quivering in the corner, was groom-to-be Mike Bellet with his lovely fiancée, Debbie Parzow. Seen whooping it up were Ben "the phone" Leptz and Benard Barton. Stan Orlinsky and

THE UNIVERSITY HATCHET, Tuesday, December 15, 1959-5

pinmate Elaine Mickelson also wished Sweetheart Toby their best wishes.

The Delts, Saturday night, held what they hope to be their last party in the shack on 22 st. As a parting gesture, they embellished the temporary shelter with a Christmas tree which looked as though it "drunk the hemlock." The party was momentarily interrupted upon the arrival of the "Post Office Crew" composed of Bill Smythe, Bryant Girdler, Bill Ellbeck and Bill Massey. When the singing session started downstairs, the voices of Ham Beggs, DG Paula Fortucci, Bill Peeples and Chio Pat Millsap were heard over the din.

ZTA pledges were honored at a pledge formal at the Charterhouse Friday evening. They enjoyed a cocktail party before the dance hosted by Dotti Mathyer. The

pledges and their dates were Margie Fairbanks, Dick Sengpheel, Ginny Miller, Jimmy Ma-teer, Rosalie Akey, Bob Aleshire, Ann Thompson, Sigma Chi Lin DeVecchio, Phyllis Garnett, Sigma Chi Dave Tureck, Carol Carlson, Alan Wooldridge, Carol Cooper, Rich Hornfeck, Kay Muench, Peter Muench, Linda Hartel, Sigma Chi John Day, Carolyn Sundberg, Sigma Chi Othan Gilbert, Juliane Robins, Dave Jennings, Marcia Thompson and Bill Ward.

Saturday night Dupont Circle was the scene of the SAE pledge-active party. Seen playing Indian signs in the lower level of Minerva's Domicile for the East Coast championship were: Teddy Alexander, Chi O Kathy Arness, "Frankenstein" Campana, KKG Kay Calliouette, Henry "all-over" (Continued On Page 8)

## JOB OPPORTUNITIES!

A General Motors representative will be on campus

January 5

Contact your college placement office to arrange an interview.

*Looking deep...  
into the nature of things*

At the General Motors Research Laboratories, physicists employ radioactive isotopes and other ultra-modern techniques and tools in their search for new scientific knowledge and an understanding of the many laws of nature that continue to perplex mankind.

Although a lot depends on a man's ability, enthusiasm and growth potential, there's every chance for advancement in many fields for General Motors scientists and engineers. There's virtually no limit to opportunity at GM. Fields of work are as varied as radioactive isotope research, astronautics, automobiles, aircraft engines and inertial guidance systems— to mention but a few.

If you wish to pursue postgraduate studies, GM offers financial aid. And since each GM division is autonomous yet related, you can grow in two directions—up through your own division, or to the side to other divisions.

For an exciting, rewarding career, see your Placement Officer or write to General Motors, Salaried Personnel Placement, Personnel Staff, Detroit 2, Michigan.

## GENERAL MOTORS

GM positions now available in these fields for men holding Bachelor's, Master's and Doctor's degrees: Mechanical, Electrical, Industrial, Metallurgical, Chemical, Aeronautical and Ceramic Engineering • Mathematics • Industrial Design • Physics • Chemistry • Engineering Mechanics • Business Administration and Related Fields

**On Campus** with Max Shulman

(Author of "I Was a Teen-age Dwarf" "The Many Loves of Dobie Gillis", etc.)

### DECK THE HALLS

When you think of Christmas gifts you naturally think of Marlboro cigarettes, leading seller in flip-top box in all fifty states—and if we annex Wales, in all fifty-one—and if we annex Lapland, in all fifty-two. (This talk about annexing Wales and Lapland is, incidentally, not just idle speculation. Great Britain wants to trade Wales to the United States for a desert. Great Britain needs a desert desperately on account of the tourist trade. Tourists are always coming up to the Prime Minister or the Lord Privy Seal, or the Thane of Glamis, or like that and saying, "I'm not knocking your country, mind you. It's very quaint and picturesque, etc., what with Buckingham Palace and Bovril and Scotland Yard, etc., but where's your desert?")

*"...but where's your desert?"*

Before I forget, let me point out that Scotland Yard, Britain's plain-clothes police branch, was named after Wally Scotland and Fred Yard who invented plain clothes. The American plain-clothes force is called the F.B.I. after Frank B. Incheliff, who invented fingerprints. Before Mr. Incheliff's invention, everybody's fingers were absolutely glassy smooth. This, as you may imagine, played hob with the identification of newborn babies in hospitals. From 1791 until 1904 no American parent ever brought home the right baby from the hospital. This later became known as the Black Tom Explosion.

(But I digress. England, I was saying, wants to trade Wales for a desert. Sweden wants to trade Lapland for Frank B. Incheliff. The reason is that Sweden to this day still don't have fingerprints. As a result, identification of babies in Swedish hospitals is so haphazard that Swedes flatly refuse to bring their babies home. There are, at present, nearly a half-billion unclaimed babies in Swedish hospitals—some of them well over eighty years old.)

But I digress. Marlboro is, of course, an ideal Christmas gift for your friends and loved ones who enjoy filter cigarettes. If, on the other hand, your friends and loved ones like mildness but don't like filters, then you can't go wrong with a carton of Philip Morris. If your friends and loved ones like a subtly mentholated cigarette that combines refreshing taste with high filtration, then buy a carton of Alpines. (Alpines, incidentally, are named after the late Albert G. Pine. Al Pine worked all his life to invent a cigarette that would combine light menthol and high filtration, but alas he never succeeded. As by-products of his research he did manage to invent the atom, the gooseneck lamp and the cocker spaniel, but the lightly mentholated high filtration cigarette, alas, never. Now this dream is realized, and what could be more fitting than to pay tribute to this gallant man by calling this cigarette Alpine?)

© 1959 Max Shulman

We, the makers of Marlboro, Philip Morris and Alpine are now enjoying our sixth year with Max Shulman. Obviously, we think he is a funny fellow. We think you'll think so too. If you look at his television series "THE MANY LOVES OF DOBIE GILLIS"—and read his latest book, "I WAS A TEEN-AGE DWARF."

# We Wish You A Merry Christmas,

Please report any conflicts to Mrs. Bernhiesel, Assistant Registrar Immediately.

## SECRETARIAL STUDIES

## Student Council Reorganization

(Continued From Page 1)  
mittee has not definitely decided on this idea yet.

Major student activities will be represented on the activities committee by their highest ranking executive officer. The activities committee is to meet at least once a month and its executive board will meet every other week.

The activities committee would have the power to introduce resolutions to the Student Council legislation committee and would be empowered to plan, coordinate and execute all collegiate activities, with the exception of intramural and intercollegiate sports, within the limits set down by the Board of Trustees and within the

authority of the Student Council.

Because the plan calls for an amendment to the Articles of Student Government, the student body would have to approve it before it went into effect.

(Ed. note.) Because of the vital nature of the above plan, the HATCHET invites its readers to make brief, to-the-point comments regarding any major points of opposition they might have to the plan and also any favorable aspects of it which they may especially advocate.

The measure probably won't be presented to the Student Council until after Christmas, when the final draft of the proposal will be ready. After the measure is re-

ported out of committee to the Student Council and voted on by them, it will be presented to the students in a referendum held in order to decide whether or not the Articles of Student Government should be amended to enable the reorganization plan to go into effect.

Favorable comment regarding the proposal has been received from several interest groups and no major opposition to the plan, or parts thereof, seems to exist within the Student Council Reorganization Committee itself. However, up to now, the whole plan has not been unveiled and little effort to elicit opinion regarding it has been made.

CLOSING THE DEAL . . . Joe Iseman and T. C. Aronoff, Hi-Ball co-chairmen, seal the contract with the manager of the Arlington Towers for the use of the Terrace Room for the Student Council Hi-Ball Dance.

## Foggy Bottom

(Continued from Page 5)  
Frain, Spero Aspiotes (former East Coast champ), Neal "Merry" Berryman, Carolyn Tucker and Al Inamorato. The game was so wild that everyone, including one "Ace" Miller, was eliminated. Keeping the upstairs cozy were Larry Dohner, Carol Axelsson, Mike "The Hat," ChiO Lea Obear (Miss America of 1960), King Richard the Wells and Lyn Bream.

Betty Slavin was crowned 1959 Teke Pledge Queen at the annual Pledge Formal held Saturday night at the Teke house. Seen among those dancing and singing were: Bill Crown, Queen Betty Slavin, Dave Sudduth, ADPI Micha Iskowskl, Dick Slavin, Peggy Anne Eck, Craig Davis, retiring Pledge Queen Pris Hardin, Bob Guild, Janet Lettill, Jay Earl, ZTA Fran Bell, Paul Chasey and ADPI Mary Alice Coates.

The Phi Sig actives, pledges and friends (girls) celebrated an

"aftermath party" following the pledges' annual Miss Model Pledge contest last Saturday night. Most of the attention centered around the newly crowned Miss Model Sorority Pledge, Ann Hardy. Phi Sig pledge President Tom Ellimonston and his pledges were to be commended for an excellent party. Joining the party later were charming Ann Gay and her entourage. Other arrivals were Ray Holt, ChiO Judy Allen, "Manners" Fensted, Anna Kaskfe, Charlie Mays, ADPI Ann Haug, Mike Stockenburg and "whomever" happened to be closeted, Griff Jones and KKG Twink Hawley.

Whew, the last one—before next year, that is. So, with a merry hope for a wonderful vacation (may yours be drenched with egg nog), a note of sorrow for those dear souls allergic to mistletoe, a happy, happy New Year and "Yes Virginia, there is a Santa Claus."

THERE'S AN IMPORTANT FUTURE AHEAD FOR THE MEN  
WHO WEAR THESE WINGS

The Air Force pilot or navigator is a man of many talents. He is, first of all, a master of the skies—and no finer exists. In addition, he has a firm background in astro-navigation, electronics, engineering and allied fields. Then, too, he must show outstanding qualities of leadership, initiative and self-reliance. In short, he is a man eminently prepared for an important future in the new Age of Space. Find out today if you can qualify as an Air Force pilot or navigator. Paste the attached coupon on a postal card and mail it now.

## Bramble Talks On Venezuelan Fate

• VENEZUELA WILL NEVER be dominated by Communism unless there is a great change in the character of the people," Harlon Bramble, department director of international resources at the State Department, told the International Relations club last week.

"Although Communism is extensively and openly accepted in Venezuela, as a result of the comparatively low standard of living, joined with the pressure of a tremendous population explosion, the Latins are too resistant to discipline to take the intense regimentation of Communism willingly," Mr. Bramble said.

"Since the government is unable to provide the capital for development because of the reduction in the price of oil, their only commodity, the lack of education among the ordinary people and the need for good universities presents a large problem," he said.

### Deadline—

• FOGGY BOTTOM deadline is always Sunday at 1 pm. Don't expect to get your group's activities publicized if you don't meet the deadline.

The trouble between Cuba and the Dominican Republic is another source of worry for Venezuela's President, Ramon Betancourt. His country is part of the Caribbean area and is directly influenced by the events in those detour countries.

Mr. Bramble explained that the government reluctantly supports the rather "pink" leftist tactics of Cuba's Fidel Castro, as opposed to the extreme dictatorial activities of Rafael Trujillo of the Dominican Republic.

He described Castro's strange magnetism over the Latin as being "a tremendous ability to project his thoughts and desires onto the mind of the spectator." "But," he pointed out, "as has been witnessed many times before, the temperament of the people will not allow them to submit to any form of prolonged dictatorship."

Mr. Bramble was able to draw his conclusions on the Latin as a result of the three years he spent in Caracas as economic adviser to the U. S. Embassy there.

## 'Exchange' Teachers Aid Good Diplomacy

• "REAL UNDERSTANDING between peoples and individuals is brought about by the system of teacher exchange with foreign countries," said Joseph Patman of the International Education Exchange Service of the State Department at a SNEA meeting last week.

### Gate & Key—

• THE NEXT MEETING of the Gate and Key Society will be held on Thursday, Dec. 17, at 7:30 pm at the Delta Tau Delta Fraternity house, 708 22 st. The main item on the agenda is a Christmas carolling party to which all girls are invited. An initiation and business meeting will proceed the carolling, which will begin at 10 pm.

"A teacher has opportunities to meet and get to know the ordinary people who make up the core of a nation which no tourist or diplomat can hope to have," explained Mr. Patman.

The exchange programs also enable educators from other countries to study the American way of life. The rate of exchange is especially prominent between Great Britain and the U. S., approximately a hundred teachers going each way every year.

Thousands apply each year which makes it necessary to choose only those best qualified. Among the specified requirements

## National Law Center

(Continued From Page 1)

cedural courses in specialized areas of public law. Secondly, it will perform research in public law areas directed toward inquiry into basic problems of legal structure, doctrine and practice. And finally, it will provide services from our public law resources to various participants and organizations, including other law schools, government entities, scholars and officials of other nations of the free world.

The trustees said that establishment of a National Law Center in the national capital at the University was of primary importance in meeting urgent needs of our time.

They said establishment of the Center recognized the "scientific progress and world relationship create a continuing need for law to recognize new conditions developing and to maintain the underlying values of democratic civilization, based upon deep respect for the dignity of the individual human being."

Dr. Nutting has been director of the Buhl Foundation since 1956. He became professor of Law at the University of Pittsburgh in 1946, subsequently serving as vice-dean and dean of the Law School and later as vice chancellor of the University.

During World War II, Dr. Nutting was on the staff of the Office of the Solicitor, United States Department of Agriculture and War Food Administration. He has taught at the law schools of the Universities of Nebraska, Texas, Iowa and Michigan and was in general practice as an associate of the first of Homes and Adams in Wichita, Kansas.

Dr. Nutting is a graduate of the State University of Iowa, and holds the law degree of Juris Doctor from that university and the Master of Laws and Doctor of Juridical Science from Harvard University. He holds three honorary degrees: Doctor of Laws from the University of Pittsburgh, the Doctor of Letters from Geneva College and the Doctor of Humane Letters from Seton Hill College. He is an author of numerous articles for legal publications and editor with Sheldon D. Elliott of "Cases and Materials on Legislation."

He has held numerous posts of responsibility in professional and civic organizations. In addition to serving as president of the Association of American Law Schools,

Dr. Charles B. Nutting

he has served in various capacities with the American Bar Association, the Pennsylvania Bar Association and Allegheny County and Pittsburgh legal and community groups. His collegiate honors include membership in Order of the Coif and Phi Beta Kappa.

He is married to the former Mary Agnes Flannagan. They have three daughters.

## Latimer Receives Research Grant

Dr. John F. Latimer, professor of classical languages and literature and assistant dean of faculties at the University, has been awarded \$2,000 from the Evening Star Research Fund.

The grant will be used for a study of the changes in undergraduate and graduate specialization that have taken place in the four-year colleges and universities

of the United States since the academic year 1947-48.

The study will explore the implications of these changes for higher education and for national welfare and security. Dr. Harold Bright, professor of statistics and executive officer of the department of statistics at the University, will collaborate with Dr. Latimer on the study.

### A TRIP DESIGNED WITH YOU IN MIND TO EUROPE

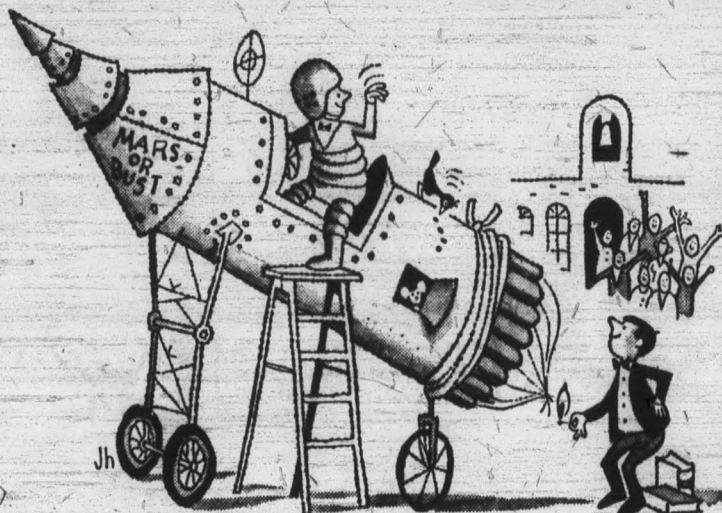

If you are looking for a summer filled with adventure and excitement, then here is your opportunity to see the best of Europe at a cost you can easily afford. By careful planning you will be given a tour to compare with those costing hundreds of dollars more, without sacrificing any of the luxuries or necessities. Here are a few of the many features to be included in next summer's tour:

1. Choice of ship or JET plane, Transatlantic.
2. Fine hotels throughout.
3. Private, deluxe motorcoach.
4. Tickets for shows, nightclubs, ski-lift trips, etc.
5. Besides a tour conductor, and private chauffeur, a multi-lingual escort.
6. Option of remaining in Europe as long as you wish.
7. Free planning service to arrange extensions for "going on your own."
8. Tickets for the once-every-ten-year Passion Play.
9. Visits with students and faculty of foreign universities.
10. Exciting boat trips through the canals of Holland and the Rhine River.
11. Help with purchase or rental of foreign car.
12. Thorough sightseeing through Holland, Belgium, Germany, Austria, Switzerland, Luxembourg, Lichtenstein, Italy and France, plus an optional British Isles extension.
13. No rigid minute-by-minute scheduling.
14. Ample free time for wandering on your own, everywhere.

All of these features and more are yours for \$995. This is an independent tour, conducted by Mr. Edward G. Ferrero, and is in no way affiliated with The George Washington University. For a detailed itinerary, please contact Mr. Ferrero in Lisner Auditorium, or write to him at 700 No. Wayne St., Arlington, Va.

## Do You Think for Yourself?

(TEST YOUR WITS ON THESE QUESTIONS\*)

The statement "Experience is the best teacher" is (A) the faculty's confession of failure; (B) a dogmatic way of saying you can learn by doing; (C) an excuse for trying anything once.

A ☐ B ☐ C ☐

If someone called you a beatnik, would you (A) insult him right back? (B) ask him if he knows what a beatnik really is? (C) thank him for the compliment?

A ☐ B ☐ C ☐

If you saw a dinosaur roaming around the campus, would you say, (A) "Big, ain't he?" or (B) "Where's the movie playing?" or (C) "This place is sure out of date!"

A ☐ B ☐ C ☐

Do you base your choice of a cigarette mostly on (A) what your friends say they like? (B) what your own judgment tells you is best? (C) what the makers say about their product?

A ☐ B ☐ C ☐

It's a wise smoker who depends on his own judgment, not opinions of others, in his choice of cigarettes. That is why men and women who think for themselves usually smoke Viceroy. They know only

Viceroy has a thinking man's filter—the best filter of its kind ever developed... the filter that changed America's smoking habits. And only Viceroy has a smoking man's taste.

\*If you checked (C) on three out of four of these questions, you're a high-test character—you think for yourself!

Familiar pack or crush-proof box.

The Man Who Thinks for Himself Knows— ONLY VICEROY HAS A THINKING MAN'S FILTER... A SMOKING MAN'S TASTE!

## 'Richest Soul' Possessed By Poorest Man

• "THE RICHEST SOUL that ever lived was one of the poorest men who ever lived. His name was Jesus," said Dr. Albert P. Shirkey during chapel services Wednesday.

Jesus never owned a thing. He didn't have what most people would consider the treasures of life, the Minister of Mount Vernon Place Methodist Church said.

"Contemplate the treasures of the world." Each country has its treasures—the Westminster Abbey of England, the Grecian Parthenon or the pyramids of Egypt. These are treasure houses which are loved by the people of those countries.

America has its treasure houses, too, the speaker said. He mentioned the Liberty Bell, the Declaration of Independence and the historic sights in Jamestown and Williamsburg.

"When you think of it, all these could be destroyed in a minute by a hydrogen bomb." These treasures, then, are not lasting. "What are the treasures of life?" Dr. Shirkey asked.

The treasures of life are never found in anything outward. They are treasures of the mind, heart and spirit. "Nothing can rob man of these eternal treasures." To be rich in the things of life, one must possess love, truth, faith.

America, the world and each life will find its greatest treasures stored away in the minds and spirits of the people. "If you don't possess the true treasures, the real sources of richness, then, you will be poverty-stricken," Dr. Shirkey said.

# Colonials At Uline For Two Cage Tilts

by Dave Segal

• THE COLONIALS, who fared so poorly at Richmond, will have no respite when they meet two strong basketball quintets in Wake Forrest and William and Mary Wednesday and Friday night respectively at Uline Arena.

Wake Forrest placed sixth last season in the rugged Atlantic Coast Conference which features the likes of North Carolina, North Carolina State and Duke. The Deacons, on the strength of their phenomenal sophomore star Len Chappell, figure to leapfrog up in this year's standings.

Coach Bones McKinnēy, a basketball great with the Original Celtics, will field a tall, experienced team which may very well become the best rebounders in their conference. Front-liners Dave Budd and Winston Wiggins will give the Deacons height, speed, and shooting touch in the forecourt.

## SX Takes Crown

• SIGMA CHI WALKED off with the intramural football crown when the Moonlighters forfeited on Sunday. The Moonlighters, who reached a season stalemate with AEPI gained the right to meet SX by winning a flip of the coin.

AEPI took third place with a 7-0 victory over the Delta. An 80-yard march late in the third quarter provided the APE-men with their margin of victory. A short pass from quarterback Rick Silas to Al Ezrin capped the drive. Silas again completed an aerial, this time to Sid Hirsch, for the conversion and a 7-0 AEPI victory.

## Games

(Continued from Page 12)

mond Saturday night. The Colonials outscored their South Carolina opponents by ten points from the floor, but a total of 21 GW personals handed Furman 26 free points from the foul line. The "Mark" again led the Colonials with 13 points, with Howie Bash and Gar Schweickhardt netting 12 and 11 respectively. The match was nip and tuck until midway through the last half when Furman moved ahead 59-57 and gradually pulled away from the Buff.

FURMAN	G.	F.	P.	Pts.
B. Pinson	8	10-11	1	16
Wilson	6	9-11	2	21

Sun. 11:00 a.m. - 12:00 a.m.

1319 CONN. AVE. AD. 2-9418

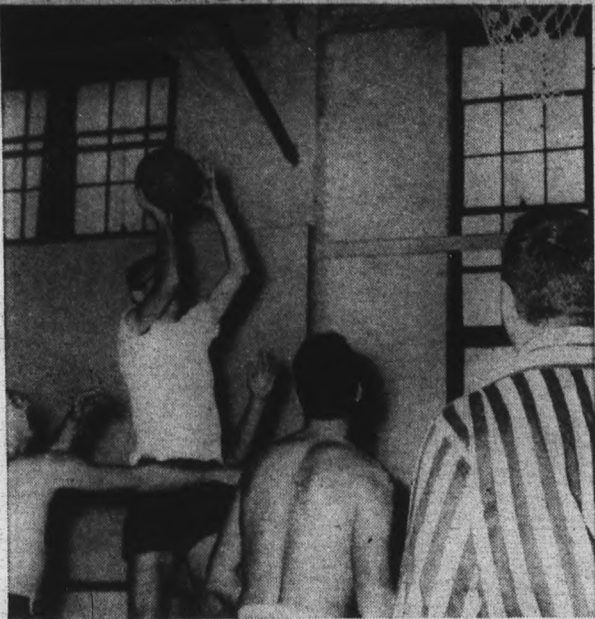

Last year's stellar backcourt combination of George Ritchie and Charles Forte returns intact to quarterback the team. Billy Packer, a talented newcomer, will definitely give that backcourt two-some a run for their money for a berth on the starting quintet.

The bench provides more than adequate depth with Bull Cullen, Allie Hart, Gene Compton, and Frank Loeffler guaranteeing top caliber basketball even when substitutions are necessary.

The Indians of William and Mary will field four of last year's five starters who chalked up a 13-11 record and a fourth place conference ranking last season. Led by six foot seven Jeff Cohen, the Indians will be pressing West Virginia, Virginia Tech, and The Citadel for league honors.

Chuck Sanders and Bev Vaughan, measuring six feet ten and six feet five respectively, fill out the forecourt. Guard Tom Farrington is a double-figure scorer and a wily court general. The squad is complemented by Dave Bottoms, Jim Osbon, Dave Fiscella, and five talented sophomores who give the Indians the necessary bench strength.

The Colonials will have to extend themselves far beyond last weekend's effort to entertain any hopes of tripping either of these two potent basketball powers.

... UP AND AT-EM—A "doctor" takes a shot as mural basketball gets under way. The Medical School downed Adams Hall 50-18 in its opening game.

tallied 30 points to carry ROTC to a convincing 45-20 win over AEPI. The game was close at halftime with AEPI holding a slight edge. But the Airmen's overpowering height controlled both backboards, and hence the outcome.

The Med School (J and S) squeaked by PhiSK 29-27. Dave Carlson accounted for 15 of the Doctors markers, while Jim Riddle's 11 points was high for PhiSK. The little Docs (F and S) downed the Sigma Chi B squad 41-28. High man in the game was Dick Morelli of SX with all 28 points.

# LUCKY STRIKE presents Dear Dr. Frood:

## Historic event! DR. FROOD REVEALS HIS ADDRESS

(See below)

Dear Dr. Frood: My roommate continually steals my Luckies. What should I do?  
*Sinned Against*

Dear Sinned Against: The most successful defense is the traditional African one. Mold a small wax image of your roommate. Then, at full moon, insert half a dozen common household pins into the hands of the image.

Dear Dr. Frood: If I were demented enough to want to write to you, how would I go about it?  
*Pen Pal*

Dear Pen Pal: Address your letter to:  
Dr. Frood  
Box 2990  
Grand Central Station  
New York 17, N.Y.

No phone calls please. Thus far I've been unable to have a phone installed here in the box.

Dear Dr. Frood: Our football team has lost 8 games a year for the last 6 years; How can we improve our record without letting the old coach go?  
*Alumni Pres.*

Dear Alumni Pres.:  
Schedule fewer games.

Dear Dr. Frood: I am a 5'1" co-ed with a figure exactly like the Venus de Milo's. Would you say I should be in the movies?  
*Lovery*

Dear Lovery:  
I'll say anything you want me to.

Dear Dr. Frood: I told my fiancée we can't afford to get married until I finish college. She insists that two can live as cheaply as one. Is this true?  
*Dubious*

Dear Dubious:  
Yes. If they take turns eating.

**DR. FROOD ON HARASSING  
HABITS OF ROOMMATES**

Roommates resent these common faults in roommates: Staring at my girl's picture. Not staring at my girl's picture. Studying when I'm not. Having a homely sister. Having no sister at all. Only one thing is more annoying than having a roommate who always runs out of Luckies: Having a roommate who doesn't smoke Luckies.

**COLLEGE STUDENTS SMOKE  
MORE LUCKIES THAN  
ANY OTHER REGULAR!**

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco.

**TOBACCO AND TASTE TOO FINE TO FILTER!**

Product of The American Tobacco Company—"Tobacco is our middle name"

## Buffet Honors Women Stars

• **WOMEN'S ATHLETIC**—Association Awards were announced at the Women's Fall Sports Award Buffet, at The George Washington University, last evening, Wednesday, December 9, 1959. The event was held in Lister lounge from 5:30 to 9:00.

"Hosteling—A Key to Adventure" was discussed in local, national, and international aspects by two speakers. "Hosteling in the Potomac Area" was the subject of Bill Clague, attorney, and Chairman of the Board of the Potomac Area Council, American Youth Hostels. "Hosteling Around our Country and throughout the World" was the topic of Mary Ellen Shelton, Field Services Editor for The Voice of America; and Program Director, Potomac Area Council, American Youth Hostels. Professor Ruth H. Atwell, director of women's athletics at the University, presided and Mrs. Lee S. Bielski, associate professor of speech, served as toastmistress. Music was provided by "The Four Keys"—Pat Gilliam, Anne Marie Sneeringer, Becky Hanzl, and Edie Petersilia.

### Awards Presented

**THE "MARK" HITS . . .** Dick Markowitz fakes out his man and drives around to tally an easy layup, adding to his 30-point performance against VMI.

## Mural Mirror

by Dan Solt

• **PHI SIGMA KAPPA** began the intramural basketball season this week by downing a strong Delta Theta Phi team 51-33. The Lawyers made it close until the final period when Dave Cruden led a Phi Sigma Kappa surge, scoring 14 of his 24 points, to break the game wide open.

In other A1 league action the Med School (F and S) romped to a 50-18 win over Adams Hall. Joe Svoboda led the way for the Doctors hitting on eight field goals for 16 points.

### Sharpe Scores

Mel Sharpe hit for 16 points on driving layups to give Phi Alpha Delta a 44-28 victory over Sigma Phi Epsilon. Herman Schmidt's eight points was high for SPE. The Lawyers' overall court sense and board strength, coupled with a deft shooting touch proved too much for SPE to overcome.

### TEP Wins

Tau Epsilon Phi edged a powerful Good Timers team 40-36. Steve Hanel hit on five straight jump shots in the second period and a total of eight baskets to head the TEP scoring column. Wayne Smallwood of the Good Timers

was the game's high scorer with 17 points.

Pi Kappa Alpha's Alex Sokaris dumped in 25 points in a losing cause as the Hawkers nipped the Pikes 52-43. Sokaris utilized his height and speed to pour in buckets from every position and angle. In defeating the Pikes, a perennial intramural hoop power, the Hawkers have come to the fore as the team to beat in the A2 league. John Jackson topped the victors' scoring, hitting with 18 points.

## Buff Trounces VMI; Drops Doubleheader

by Mike Duberstein

• **WHEN COACH BILL** Reinhart's Colonials take the floor tonight at Uline Arena against William and Mary, Reinhart will have more to contend with than just the Indians.

Reinhart's major problem will be to keep the GW five from defeating itself, a dilemma which has plagued the Buff since the opening game. Only once in the six matches this season have the Colonials been outscored from the floor. But the Buff have averaged nineteen personal fouls per game, and these miscues have proved fatal in three of the team's four losses.

The Colonials have looked impressive in the games in which their fast break offense could be geared to the opposition's defense. Against VMI, George Washington frequently resorted to quick attack patterns and completely overran the Keydets, 90-77. Dick Markowitz led the Colonials, garnering 30 points, 23 in the first half. VMI threatened late in the opening half, but the "Mark" dumped in six quick tallies in the final seconds; and from there on in, GW was an easy victor.

GEO. WASHINGTON	G.	F.	P.	T.
Kunze	0	2-2	4	2
Lockman	3	3-3	1	9
Markowitz	13	4-4	1	30

Quinn	0	0-0	0	0
Eddins	1	0-0	0	2
Lawson	1	0-0	1	2
Totals	31	15-22	13	77

Halftime: 50-38, GW.

### The Citadel

A cold second half start proved fatal to the Buff last Friday night against The Citadel in the opener of their weekend twinbill at Richmond. Behind by one point at intermission, 33-32, the Colonials moved ahead four points in the first minute of the second half. But in the next seven minutes, the Buff found a lid over the basket, and The Citadel romped ahead, outscoring GW 17-1. Howie Bash led the Colonials scoring with 16 points, with Markowitz contributing 12.

The Citadel	G.	F.	P.	T.
Musselman	8	2-4	4	18
Graves	9	8-8	2	26
Daniels	5	2-3	6	12

Walters	1	1-1	1	3
Paluck	0	0-0	0	0
Totals	22	14-22	18	58

Halftime, 33-32, The Citadel

### Furman

Twenty-six points on free throws gave Furman a 76-69 victory over the Buff in the final game at Richmond. (Continued on Page 11)

## 20th CENTURY ROMANCE 378-379

Techniques in handling women

No academic credit, but who cares  
Professor Romeo M.

The effects of well-groomed hair on romantic success in the mid-twentieth century. Laboratory demonstration of 'Vaseline' Hair Tonic, its effect on hair and women. Disastrous action of H<sub>2</sub>O on hair. Salutary effect of H<sub>2</sub>O plus 'Vaseline' Hair Tonic on hair. Term Paper: Unfavorable reaction of females to male's use of alcohol tonics and hair creams (Stikkywig's Law of Diminishing Returns). Students taking this course are advised to stock up on 'Vaseline' Hair Tonic and keep week ends open.

Materials: one 4 oz. bottle 'Vaseline' Hair Tonic
